PTO – Hydraulic – Rear Valve –

- <http://www.surpluscenter.com/item.asp?catname=&qty=1&item=9-1518>

Pumps – Fuel – Electric –

<http://go.mrgasket.com/ProductDetails.aspx?brandId=1&modelName=12S&productID=10573025&majID=225&minID=2255&selection=7&minselection=1>

Pumps – Hydraulic - A-style - <http://www.baileynet.com/>

<http://www.grainger.com/Grainger/wwg/start.shtml>

Choose 4F667 pump

Pumps – Hydraulic – AA-style - <http://www.phionline.com/>

The above place is the best value. Click on “Hydraulics”, then click on “Pumps”, then click on “Gear Pumps”, then select the D27AA2A in the first box. IGNORE the statement about this pump being 1500 PSI max. That’s wrong but I just can’t seem to get these guys to change it. I’ve recommended this pump a dozen times to owners and not one has complained about a single problem. Buy in confidence.
